

## Safety Data Sheet

According to Regulation (EC) No 1907/2006

## **SURE™Floor Cleaner**

**Revision:** 2019-02-03 **Version:** 04.0

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

#### 1.1 Product identifier

Trade name: SURE™Floor Cleaner

## 1.2 Relevant identified uses of the substance or mixture and uses advised against

#### Identified uses:

For professional and industrial use only.

AISE-P401 - Floor cleaner. Semi-automatic process

AISE-P402 - Floor cleaner. Spray and wipe manual process

AISE-P403 - Floor cleaner. Manual process

Uses advised against: Uses other than those identified are not recommended

#### 1.3 Details of the supplier of the safety data sheet

Diversey Europe Operations BV, Maarssenbroeksedijk 2, 3542DN Utrecht, The Netherlands

#### **Contact details**

Diversey Ltd

Weston Favell Centre, Northampton NN3 8PD, United Kingdom

Tel: 01604 405311, Fax: 01604 406809

Regulatory Email: customerservice.uk@diversey.com

## 1.4 Emergency telephone number

For medical or environmental emergency only:

call 0800 052 0185

## **SECTION 2: Hazards identification**

#### 2.1 Classification of the substance or mixture

Not classified as hazardous

#### 2.2 Label elements

#### Hazard statements:

EUH210 - Safety data sheet available on request.

## Precautionary statements:

P102 - Keep out of reach of children.

Do not mix with other products.

#### 2.3 Other hazards

No other hazards known. The product does not meet the criteria for PBT or vPvB in accordance with Regulation (EC) No 1907/2006, Annex XIII.

## SECTION 3: Composition/information on ingredients

#### 3.2 Mixtures

| Ingredient(s)                      | EC number | CAS number   | REACH number | Classification                              | Notes | Weight percent |
|------------------------------------|-----------|--------------|--------------|---------------------------------------------|-------|----------------|
| fatty acids, coco, potassium salts | 263-049-9 | 61789-30-8   | -            | Skin Irrit. 2 (H315)<br>Eye Irrit. 2 (H319) |       | 3-10           |
| C10-12 alkyl glycosides            | [4]       | 1235552-50-7 | [4]          | Eye Dam. 1 (H318)                           |       | 1-3            |

Workplace exposure limit(s), if available, are listed in subsection 8.1.

- [1] Exempted: ionic mixture. See Regulation (EC) No 1907/2006, Annex V, paragraph 3 and 4. This salt is potentially present, based on calculation, and included for classification and labelling purposes only. Each starting material of the ionic mixture is registered, as required.
- [2] Exempted: included in Annex IV of Regulation (EC) No 1907/2006.
- [3] Exempted: Annex V of Regulation (EC) No 1907/2006.
- [4] Exempted: polymer. See Article 2(9) of Regulation (EC) No 1907/2006.

For the full text of the H and EUH phrases mentioned in this Section, see Section 16.

## **SECTION 4: First aid measures**

## 4.1 Description of first aid measures

**Inhalation:** Get medical attention or advice if you feel unwell.

Skin contact: Wash skin with plenty of lukewarm, gently flowing water. If skin irritation occurs: Get medical advice

or attention.

Eye contact: Rinse cautiously with water for several minutes. If irritation occurs and persists, get medical

attention.

Ingestion: Rinse mouth. Immediately drink 1 glass of water. Never give anything by mouth to an unconscious

person. Get medical attention or advice if you feel unwell.

**Self-protection of first aider:** Consider personal protective equipment as indicated in subsection 8.2.

#### 4.2 Most important symptoms and effects, both acute and delayed

Inhalation:No known effects or symptoms in normal use.Skin contact:No known effects or symptoms in normal use.Eye contact:No known effects or symptoms in normal use.Ingestion:No known effects or symptoms in normal use.

#### 4.3 Indication of any immediate medical attention and special treatment needed

No information available on clinical testing and medical monitoring. Specific toxicological information on substances, if available, can be found in section 11

## **SECTION 5: Firefighting measures**

#### 5.1 Extinguishing media

Carbon dioxide. Dry powder. Water spray jet. Fight larger fires with water spray jet or alcohol-resistant foam.

#### 5.2 Special hazards arising from the substance or mixture

No special hazards known.

#### 5.3 Advice for firefighters

As in any fire, wear self contained breathing apparatus and suitable protective clothing including gloves and eye/face protection.

## SECTION 6: Accidental release measures

#### 6.1 Personal precautions, protective equipment and emergency procedures

No special measures required.

#### 6.2 Environmental precautions

Do not allow to enter drainage system, surface or ground water. Dilute with plenty of water.

#### 6.3 Methods and material for containment and cleaning up

Absorb with liquid-binding material (sand, diatomite, universal binders, sawdust).

## 6.4 Reference to other sections

For personal protective equipment see subsection 8.2. For disposal considerations see section 13.

## SECTION 7: Handling and storage

#### 7.1 Precautions for safe handling

### Measures to prevent fire and explosions:

No special precautions required.

#### Measures required to protect the environment:

For environmental exposure controls see subsection 8.2.

#### Advices on general occupational hygiene:

Handle in accordance with good industrial hygiene and safety practice. Keep away from food, drink and animal feeding stuffs. Do not mix with other products unless adviced by Diversey.

## 7.2 Conditions for safe storage, including any incompatibilities

Store in accordance with local and national regulations. Keep only in original packaging.

For conditions to avoid see subsection 10.4. For incompatible materials see subsection 10.5.

#### 7.3 Specific end use(s)

No specific advice for end use available.

## SECTION 8: Exposure controls/personal protection

## 8.1 Control parameters

Workplace exposure limits

Air limit values, if available:

Biological limit values, if available:

Recommended monitoring procedures, if available:

Additional exposure limits under the conditions of use, if available:

#### **DNEL/DMEL** and **PNEC** values

**Human exposure** 

DNEL oral exposure - Consumer (mg/kg bw)

| Ingredient(s) |                                    |                   | Short term - Systemic |                   | Long term - Systemic |
|---------------|------------------------------------|-------------------|-----------------------|-------------------|----------------------|
|               |                                    | effects           | effects               | effects           | effects              |
|               | fatty acids, coco, potassium salts | No data available | No data available     | No data available | No data available    |

| C10-12 alkyl glycosides            | No data available          | No data available             | No data available         | No data available            |  |

### **Environmental exposure**

Environmental exposure - PNEC

| Ingredient(s) |                                    | Surface water, fresh (mg/l) | Surface water, marine (mg/l) | Intermittent (mg/l) | Sewage treatment plant (mg/l) |  |
|---------------|------------------------------------|-----------------------------|------------------------------|---------------------|-------------------------------|--|
| Ī             | fatty acids, coco, potassium salts | No data available           | No data available            | No data available   | No data available             |  |
| Γ             | C10-12 alkyl glycosides            | No data available           | No data available            | No data available   | No data available             |  |

Environmental exposure - PNEC, continued

|                                    | Ingredient(s)           | Sediment, freshwater (mg/kg) | Sediment, marine<br>(mg/kg) | Soil (mg/kg)      | Air (mg/m³)       |  |
|------------------------------------|-------------------------|------------------------------|-----------------------------|-------------------|-------------------|--|
| fatty acids, coco, potassium salts |                         | No data available            | No data available           | No data available | No data available |  |
|                                    | C10-12 alkyl glycosides | No data available            | No data available           | No data available | No data available |  |

## 8.2 Exposure controls

The following information applies for the uses indicated in subsection 1.2 of the Safety Data Sheet. If available, please refer to the product information sheet for application and handling instructions. Normal use conditions are assumed for this section.

Recommended safety measures for handling the undiluted product:

Covering activities such as filling and transfer of product to application equipment, flasks or buckets

Appropriate engineering controls: No special requirements under normal use conditions. Appropriate organisational controls: No special requirements under normal use conditions.

Personal protective equipment

Eye / face protection: Safety glasses are not normally required. However, their use is recommended in those cases

where splashes may occur when handling the product (EN 166).

Hand protection:No special requirements under normal use conditions.Body protection:No special requirements under normal use conditions.Respiratory protection:No special requirements under normal use conditions.

**Environmental exposure controls:** No special requirements under normal use conditions.

Recommended safety measures for handling the <u>diluted</u> product:

Recommended maximum concentration (%): 1

Appropriate engineering controls: Provide a good standard of general ventilation. Appropriate organisational controls: No special requirements under normal use conditions.

Personal protective equipment

No special requirements under normal use conditions. Eye / face protection: Hand protection: No special requirements under normal use conditions. **Body protection:** No special requirements under normal use conditions. Respiratory protection: No special requirements under normal use conditions.

No special requirements under normal use conditions. **Environmental exposure controls:** 

## SECTION 9: Physical and chemical properties

#### 9.1 Information on basic physical and chemical properties

Information in this section refers to the product, unless it is specifically stated that substance data is listed

Method / remark

Physical State: Liquid

Colour: Clear, from Yellow to Orange

Odour: Product specific

Odour threshold: Not applicable

**pH**: ≈ 10 (neat) ISO 4316 ISO 4316 Dilution pH: ≈ 9

Melting point/freezing point (°C): Not determined Not relevant to classification of this product

Initial boiling point and boiling range (°C): Not determined See substance data

Substance data, boiling point

| Ingredient(s)                      | Value<br>(°C)     | Method | Atmospheric pressure (hPa) |
|------------------------------------|-------------------|--------|----------------------------|
| fatty acids, coco, potassium salts | No data available |        |                            |
| C10-12 alkyl glycosides            | No data available |        |                            |

#### Method / remark

Flammability (liquid): Not flammable.

Flash point (°C):  $\approx$  93.4

Sustained combustion: Not applicable. (UN Manual of Tests and Criteria, section 32, L.2)

**Evaporation rate:** Not relevant for classification of this product.

Flammability (solid, gas): Not applicable to liquids Upper/lower flammability limit (%): Not determined Not relevant to classification of this product

Not relevant to classification of this product

Substance data, flammability or explosive limits, if available:

Method / remark See substance data

Vapour pressure: Not determined

Substance data vanour pressure

| Ingredient(s)                      | Value<br>(Pa)     | Method | Temperature<br>(°C) |
|------------------------------------|-------------------|--------|---------------------|
| fatty acids, coco, potassium salts | No data available |        |                     |
| C10-12 alkyl glycosides            | No data available |        |                     |

Method / remark

Not relevant to classification of this product

OECD 109 (EU A.3)

Solubility in / Miscibility with Water: Fully miscible

4-4- -- 1.0-114.

Vapour density: Not determined Relative density: ≈ 1.04 (20 °C)

| Substance data, solubility in water     |                   |        |             |
|-----------------------------------------|-------------------|--------|-------------|
| Ingredient(s)                           | Value             | Method | Temperature |
| • • • • • • • • • • • • • • • • • • • • | (g/l)             |        | (°C)        |
| fatty acids, coco, potassium salts      | No data available |        |             |
| C10-12 alkyl glycosides                 | No data available |        |             |

Substance data, partition coefficient n-octanol/water (log Kow): see subsection 12.3

Method / remark

Autoignition temperature: Not determined Decomposition temperature: Not applicable.

Viscosity: ≈ 50 mPa.s (20 °C) Explosive properties: Not explosive. Oxidising properties: Not oxidising.

Not oxidising, based on substance properties

9.2 Other information

Surface tension (N/m): Not determined Corrosion to metals: Not corrosive

Not relevant to classification of this product Weight of evidence

Substance data, dissociation constant, if available:

## SECTION 10: Stability and reactivity

#### 10.1 Reactivity

No reactivity hazards known under normal storage and use conditions.

#### 10.2 Chemical stability

Stable under normal storage and use conditions.

#### 10.3 Possibility of hazardous reactions

No hazardous reactions known under normal storage and use conditions.

#### 10.4 Conditions to avoid

None known under normal storage and use conditions.

#### 10.5 Incompatible materials

Reacts with acids.

### 10.6 Hazardous decomposition products

None known under normal storage and use conditions.

## **SECTION 11: Toxicological information**

#### 11.1 Information on toxicological effects

No data is available on the mixture.

Substance data, where relevant and available, are listed below:.

## Acute toxicity

Acute oral toxicity

| Ingredient(s)                      | Endpoint | Value     | Species | Method | Exposure |
|------------------------------------|----------|-----------|---------|--------|----------|
|                                    |          | (mg/kg)   |         |        | time (h) |
| fatty acids, coco, potassium salts |          | No data   |         |        |          |
|                                    |          | available |         |        |          |
| C10-12 alkyl glycosides            |          | No data   |         |        |          |
|                                    |          | available |         |        |          |

Acute dermal toxicity

| Ingredient(s)                      | Endpoint | Value<br>(mg/kg) | Species | Method | Exposure time (h) |
|------------------------------------|----------|------------------|---------|--------|-------------------|
| fatty acids, coco, potassium salts |          | No data          |         |        |                   |
|                                    |          | available        |         |        |                   |
| C10-12 alkyl glycosides            |          | No data          |         |        |                   |
|                                    |          | available        |         |        |                   |

Acute inhalative toxicity

| Ingredient(s)                      | Endpoint | Value<br>(mg/l) | Species | Method | Exposure time (h) |
|------------------------------------|----------|-----------------|---------|--------|-------------------|
| fatty acids, coco, potassium salts |          | No data         |         |        |                   |
|                                    |          | available       |         |        |                   |
| C10-12 alkyl glycosides            |          | No data         |         |        |                   |
|                                    |          | available       |         |        |                   |

## Irritation and corrosivity

Skin irritation and corrosivity

| Ingredient(s)                      | Result            | Species | Method | Exposure time |
|------------------------------------|-------------------|---------|--------|---------------|
| fatty acids, coco, potassium salts | No data available |         |        |               |
| C10-12 alkyl glycosides            | No data available |         |        |               |

Eye irritation and corrosivity

| Ingredient(s)                      | Result            | Species | Method | Exposure time |
|------------------------------------|-------------------|---------|--------|---------------|
| fatty acids, coco, potassium salts | No data available |         |        |               |
| C10-12 alkyl glycosides            | No data available |         |        |               |

Respiratory tract irritation and corrosivity

| Ingredient(s) | Result | Species | Method | Exposure time |
|---------------|--------|---------|--------|---------------|
|               |        |         |        |               |

| fatty acids, coco, potassium salts C10-12 alkyl glycosides |  | No data available |  |  |
|------------------------------------------------------------|--|-------------------|--|--|
|                                                            |  | No data available |  |  |

#### Sensitisation

Sensitisation by skin contact

| Ingredient(s)                      | Result            | Species | Method | Exposure time (h) |
|------------------------------------|-------------------|---------|--------|-------------------|
| fatty acids, coco, potassium salts | No data available |         |        |                   |
| C10-12 alkyl glycosides            | No data available |         |        |                   |

Sensitisation by inhalation

| Ingredient(s)                      | Result            | Species | Method | Exposure time |
|------------------------------------|-------------------|---------|--------|---------------|
| fatty acids, coco, potassium salts | No data available |         |        |               |
| C10-12 alkyl glycosides            | No data available |         |        |               |

# CMR effects (carcinogenicity, mutagenicity and toxicity for reproduction) Mutagenicity

| Ingredient(s)                      | Result (in-vitro) | Method<br>(in-vitro) | Result (in-vivo)  | Method<br>(in-vivo) |  |

|------------------------------------|-------------------|
| fatty acids, coco, potassium salts | No data available |
| C10-12 alkyl glycosides            | No data available |

STOT-repeated exposure

| 5101 Topodica expecuto             |                   |
|------------------------------------|-------------------|
| Ingredient(s)                      | Affected organ(s) |
| fatty acids, coco, potassium salts | No data available |
| C10-12 alkyl glycosides            | No data available |

#### **Aspiration hazard**

Substances with an aspiration hazard (H304), if any, are listed in section 3. If relevant, see section 9 for dynamic viscosity and relative density of the product.

## Potential adverse health effects and symptoms

Effects and symptoms related to the product, if any, are listed in subsection 4.2.

## **SECTION 12: Ecological information**

## 12.1 Toxicity

No data is available on the mixture.

Substance data, where relevant and available, are listed below:

#### Aquatic short-term toxicity

| Aquatic short-term to | toxicity | - fish |
|-----------------------|----------|--------|
|-----------------------|----------|--------|

| Ingredient(s)                      | Endpoint | Value<br>(mg/l) | Species | Method | Exposure time (h) |
|------------------------------------|----------|-----------------|---------|--------|-------------------|
| fatty acids, coco, potassium salts |          | No data         |         |        |                   |
|                                    |          | available       |         |        |                   |
| C10-12 alkyl glycosides            |          | No data         |         |        |                   |
|                                    |          | available       |         |        |                   |

Aquatic short-term toxicity - crustacea

| Ingredient(s)                      | Endpoint | Value<br>(mg/l)      | Species | Method | Exposure time (h) |
|------------------------------------|----------|----------------------|---------|--------|-------------------|
| fatty acids, coco, potassium salts |          | No data<br>available |         |        |                   |
| C10-12 alkyl glycosides            |          | No data<br>available |         |        |                   |

Aquatic short-term toxicity - algae

| Ingredient(s)                      | Endpoint | Value<br>(mg/l)      | Species | Method | Exposure time (h) |
|------------------------------------|----------|----------------------|---------|--------|-------------------|
| fatty acids, coco, potassium salts |          | No data<br>available |         |        |                   |
| C10-12 alkyl glycosides            |          | No data<br>available |         |        |                   |

Aquatic short-term toxicity - marine species

| Ingredient(s)                      | Endpoint | Value     | Species | Method | Exposure    |
|------------------------------------|----------|-----------|---------|--------|-------------|
|                                    |          | (mg/l)    |         |        | time (days) |
| fatty acids, coco, potassium salts |          | No data   |         |        |             |
|                                    |          | available |         |        |             |
| C10-12 alkyl glycosides            |          | No data   |         |        |             |
|                                    |          | available |         |        |             |

Impact on sewage plants - toxicity to bacteria

| Ingredient(s)                      | Endpoint | Value<br>(mg/l) | Inoculum | Method | Exposure time |
|------------------------------------|----------|-----------------|----------|--------|---------------|
| fatty acids, coco, potassium salts |          | No data         |          |        |               |
|                                    |          | available       |          |        |               |
| C10-12 alkyl glycosides            |          | No data         |          |        |               |
| ·                                  |          | available       |          |        |               |

## **Aquatic long-term toxicity**

Aquatic long-term toxicity - fish

| Ingredient(s)                      | Endpoint | Value<br>(mg/l)      | Species | Method | Exposure time | Effects observed |
|------------------------------------|----------|----------------------|---------|--------|---------------|------------------|
| fatty acids, coco, potassium salts |          | No data              |         |        | time          |                  |
| C10-12 alkyl glycosides            |          | available<br>No data |         |        |               |                  |
| O 10-12 aikyl glycosides           |          | available            |         |        |               |                  |

Aquatic long-term toxicity - crustacea

| Ingredient(s)                      | Endpoint | Value<br>(mg/l) | Species | Method | Exposure time | Effects observed |
|------------------------------------|----------|-----------------|---------|--------|---------------|------------------|
| fatty acids, coco, potassium salts |          | No data         |         |        |               |                  |
|                                    |          | available       |         |        |               |                  |
| C10-12 alkyl glycosides            |          | No data         |         |        |               |                  |
|                                    |          | available       |         |        |               |                  |

Aquatic toxicity to other aquatic benthic organisms, including sediment-dwelling organisms, if available:

| Ingredient(s) | Endpoint | Value     | Species | Method | Exposure    | Effects observed |
|---------------|----------|-----------|---------|--------|-------------|------------------|
|               |          | (mg/kg dw |         |        | time (days) |                  |
|               |          | sediment) |         |        |             |                  |

| fatty acids, coco, potassium salts | No data<br>available |  |   |
|------------------------------------|----------------------|--|---|
| C10-12 alkyl glycosides            | No data              |  |   |
|                                    | available            |  | 1 |

#### Terrestrial toxicity

Terrestrial toxicity - soil invertebrates, including earthworms, if available:

Terrestrial toxicity - plants, if available:

Terrestrial toxicity - birds, if available:

Terrestrial toxicity - beneficial insects, if available:

Terrestrial toxicity - soil bacteria, if available:

#### 12.2 Persistence and degradability

Abiotic degradation

Abiotic degradation - photodegradation in air, if available:

Abiotic degradation - hydrolysis, if available:

Abiotic degradation - other processes, if available:

#### Biodegradation

Ready biodegradability - aerobic conditions

| Ingredient(s)                      | Inoculum | Analytical method | DT 50 | Method             | Evaluation                 |
|------------------------------------|----------|-------------------|-------|--------------------|----------------------------|
| fatty acids, coco, potassium salts |          |                   |       | Weight of evidence | Not readily biodegradable. |
| C10-12 alkyl glycosides            |          |                   |       |                    | No data available          |

Ready biodegradability - anaerobic and marine conditions, if available:

Degradation in relevant environmental compartments, if available:

## 12.3 Bioaccumulative potential

Partition coefficient n-octanol/water (log Kow)

| Ingredient(s)                      | Value             | Method | Evaluation | Remark |
|------------------------------------|-------------------|--------|------------|--------|
| fatty acids, coco, potassium salts | No data available |        |            |        |
| C10-12 alkyl glycosides            | No data available |        |            |        |

Bioconcentration factor (BCF)

| Ingredient(s)           | Value             | Species | Method | Evaluation | Remark |
|-------------------------|-------------------|---------|--------|------------|--------|
| fatty acids, coco,      | No data available |         |        |            |        |
| potassium salts         |                   |         |        |            |        |
| C10-12 alkyl glycosides | No data available |         |        |            |        |

#### 12.4 Mobility in soil

Adsorption/Desorption to soil or sediment

| Ingredient(s)                      | Adsorption<br>coefficient<br>Log Koc | Desorption<br>coefficient<br>Log Koc(des) | Method | Soil/sediment<br>type | Evaluation |
|------------------------------------|--------------------------------------|-------------------------------------------|--------|-----------------------|------------|
| fatty acids, coco, potassium salts | No data available                    |                                           |        |                       |            |
| C10-12 alkyl glycosides            | No data available                    |                                           |        |                       |            |

## 12.5 Results of PBT and vPvB assessment

Substances that fulfill the criteria for PBT/vPvB, if any, are listed in section 3.

#### 12.6 Other adverse effects

No other adverse effects known.

## SECTION 13: Disposal considerations

13.1 Waste treatment methods Waste from residues / unused

The concentrated contents or contaminated packaging should be disposed of by a certified handler or according to the site permit. Release of waste to sewers is discouraged. The cleaned packaging

material is suitable for energy recovery or recycling in line with local legislation. 20 01 30 - detergents other than those mentioned in 20 01 29.

European Waste Catalogue:

products:

**Empty packaging Recommendation:**Dispose of observing national or local regulations.

Suitable cleaning agents: Water, if necessary with cleaning agent.

## SECTION 14: Transport information

Land transport (ADR/RID), Sea transport (IMDG), Air transport (ICAO-TI / IATA-DGR)

14.1 UN number: Non-dangerous goods

14.2 UN proper shipping name: Non-dangerous goods 14.3 Transport hazard class(es): Non-dangerous goods

14.4 Packing group: Non-dangerous goods

14.5 Environmental hazards: Non-dangerous goods 14.6 Special precautions for user: Non-dangerous goods

14.7 Transport in bulk according to Annex II of MARPOL and the IBC Code: Non-dangerous goods

## SECTION 15: Regulatory information

#### 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

#### EU regulations:

- · Regulation (EC) No. 1907/2006 REACH
- Regulation (EC) No 1272/2008 CLP
- Regulation (EC) No. 648/2004 Detergents regulation
- Regulation (EC) No 66/2010 on the EU Ecolabel

Authorisations or restrictions (Regulation (EC) No 1907/2006, Title VII respectively Title VIII): Not applicable.

UFI: 2CK2-H0MM-9003-UWW5

#### Ingredients according to EC Detergents Regulation 648/2004

5 - 15 % non-ionic surfactants < 5 %

The surfactant(s) contained in this preparation complies(comply) with the biodegradability criteria as laid down in Regulation (EC) No. 648/2004 on detergents. Data to support this assertion are held at the disposal of the competent authorities of the Member States and will be made available to them, at their direct request or at the request of a detergent manufacturer.

#### 15.2 Chemical safety assessment

A chemical safety assessment has not been carried out on the mixture

#### SECTION 16: Other information

The information in this document is based on our best present knowledge. However, it does not constitute a guarantee for any specific product features and does not establish a legally binding contract

SDS code: MS1002632 Version: 04.0 Revision: 2019-02-03

#### Reason for revision:

This data sheet contains changes from the previous version in section(s):, 2, 16

### Classification procedure

The classification of the mixture is in general based on calculation methods using substance data, as required by Regulation (EC) No 1272/2008. If for certain classifications data on the mixture is available or for example bridging principles or weight of evidence can be used for classification, this will be indicated in the relevant sections of the Safety Data Sheet. See section 9 for physical chemical properties, section 11 for toxicological information and section 12 for ecological information.

#### Full text of the H and EUH phrases mentioned in section 3:

- H315 Causes skin irritation.
- H318 Causes serious eye damage.
- H319 Causes serious eye irritation.

## Abbreviations and acronyms:

- · AISE The international Association for Soaps, Detergents and Maintenance Products
- DNEL Derived No Effect Limit
- EUH CLP Specific hazard statement
- PBT Persistent, Bioaccumulative and Toxic
- PNEC Predicted No Effect Concentration
- REACH number REACH registration number, without supplier specific part
- · vPvB very Persistent and very Bioaccumulative
- ATE Acute Toxicity Estimate
- LD50 Lethal Dose, 50% / Median Lethal dose
- LC50 Lethal Concentration, 50% / Median Lethal Concentration EC50 effective concentration, 50%
- · NOEL No observed effect level
- · NOAEL No observed adverse effect level
- OECD Organization for Economic Cooperation and Development
