Contour 25 Folding Tables

The simple and fail safe folding mechanism enables the table to be quickly and efficiently folded up and down with no pinch points, and the legs have been designed to fold back under the table in a controlled manner. Once folded the tables have a depth of 85mm so require very little storage space. Each corner of the table has solid polypropylene corners to protect the product from any unexpected impact and the rigours of daily use. The table top is finished in wipe-clean plastic laminate in a choice of woodgrains, patterns or solid colours.

The next Generation
lightweight
folding table..

- ✓ 5% Lighter
- ✓ Improved & Simplified Folding
- ✓ Enhanced table top

Enviro Workspace

If you are seeking simplistic lines for your officespace or collaborative area, this new range of tables made by Gopak, will meet your needs. Revolutionary in its design and construction, the table top is produced using wipe-clean laminate with a honeycomb core. Coupled with an anodised aluminium frame and legs, the weight of the unit is minimised without compromising on quality. Supplied in a choice of two subtle colours and two contemporary ABS edge designs.

- ✓ Coupled with a clever top construction,
- ✓ Lighter than the usual steel and MDF equivalents.
- ✓ Strong and sturdy

Outdoor Enviro Tables & Benches

Hard wearing, durable and maintenance free, these tables and benches will remain in great condition after years of use. Extremely durable top material known as compact laminate, all sizes can be supplied in a choice of four colours with profiled slats or a solid top. Anodised aluminium frame and legs, lighter than steel or wooden alternatives, yet offer great rigidity for day to day use.

- ✓ Perfect for use in schools, pubs, restaurants & businesses

STAGING & FOLDING TABLES

2000 Series Mobile Folding Stage

Each section of the SICO® 2000 mobile folding stage rolls freely on its own four wheels to wherever it is needed. No heavy sections to lift and carry, and no deck or frame caddies to bother with. This stage is designed to be set in place, then taken apart and put in storage by just one person. The SICO® 2000 Series stages can be used as a performance stage, a head table riser, a runway, a speaker's platform, or set up multiple units for musical group risers.

- ✓ Standard Cloud Grey carpeted decks or tuff deck vinyl.
- ✓ Available in single height and dual-height models.

Save on Labour and Set Up Time

Because each section of the SICO® 2000 mobile folding stage can be moved by one person, the cost savings in labour and set up time are substantial. Since each stage unit is self-contained, there is no need for bulky deck or frame storage caddies. This unique feature not only saves time and money, but valuable storage space as well.

Everything for a Complete, Professional Stage

SICO® offers everything necessary for complete, professional staging: backdrops, steps, stage skirting, corner sections, guard rails, chair and table stops, and caddies for moving stage skirting and guard rails. With health and safety in mind, SICO® strongly recommends the use of guardrails with all of our stages and riser systems.
