#### Steelite Venus

Venus by Catherine Hurand offers a bold new direction in glass dinnerware that gives the impression of dancing flames frozen in time. Evoking a wild, organic feel, while still maintaining a sensual, feminine air, Venus sets any table apart from the rest. Through seemingly free-form, each Venus piece is uniform in shape, offering stack-ability. This juxtaposition of uninhibited style with uniform structure creates the perfect piece for optimizing both practicality and presentation.

Ideal for juice glasses, narrow

champagne flutes and shot glasses

AF11011

49 Divisions, Max Glass Width 60mm

AF11012

49 Divisions, Extender

#### Glass Rack Sizing Guide

- 1) Place glass upside down on top of the middle circle of the sizing guide, centre of the glass (or the stem on stemware) should be over the centre of the guide.
- 2) Look down on the base of the glass.
- 3) Note the smallest square on the guide where the largest outside diameter of your glass lines up completely within the  $square\ without\ touching\ it-this\ is\ the\ number\ of\ compartments$ your rack needs to have.
- 4) Place the lip of glass against the base line of the vertical guide on the left hand side of the page with the base/foot of the glass pointing straight up towards the top of the page.
- 5) While holding the glass against the vertical guide, note where the base/foot of the glass lines up on the vertical guide - the next line above the base/foot on the guide indicates the number of extenders your rack will require.
