

GLASS & DISHWASHING

Glass Racks & Extenders

For glasses or cups. Compartments reduce breakage & scratches, choice of 4 compartment sizes. Simply add on extenders which snap on easily for taller glasses. Total height of 100mm; each extender adds on approx 45mm. Use guide below to suit.

Use for large cocktail glasses and wine stems with oversize bowls

Use for large diameter beverage glasses and goblets

Use with tumblers, white wine glasses and narrow bowl stems

Ideal for juice glasses, narrow champagne flutes and shot glasses

AF11007
25 Divisions, Extender

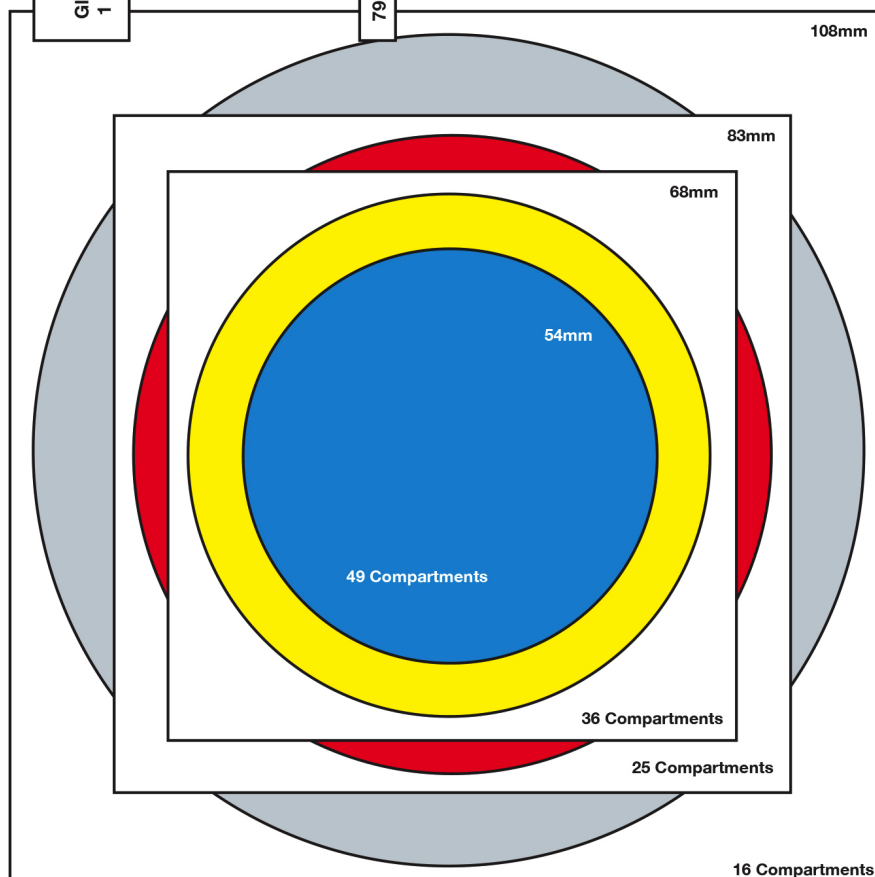

AF11010
36 Divisions, Extender

AF11012
49 Divisions, Extender

Glass Rack Sizing Guide

- 1) Place glass upside down on top of the middle circle of the sizing guide, centre of the glass (or the stem on stemware) should be over the centre of the guide.
- 2) Look down on the base of the glass.
- 3) Note the smallest square on the guide where the largest outside diameter of your glass lines up completely within the square without touching it - this is the number of compartments your rack needs to have.
- 4) Place the lip of glass against the base line of the vertical guide on the left hand side of the page with the base/foot of the glass pointing straight up towards the top of the page.
- 5) While holding the glass against the vertical guide, note where the base/foot of the glass lines up on the vertical guide - the next line above the base/foot on the guide indicates the number of extenders your rack will require.
